Generated by ScamShield AI Platform | Date & Time: 2026-09-19 03:51:52

Incident Report ID:	#00035	Analyzed User:	pavani
Analysis Date:	2026-09-19 03:51:52	Language:	EN
Scam Category:	Banking Phishing	Assigned Risk:	HIGH RISK — FRAUD / SCAM DETECTED

1. Submitted Communication Message

"SBI ALERT: Your NetBanking account will be blocked today due to pending KYC update. Click <http://192.168.1.55/sbi-verify> to update immediately or call 9123456789."

2. AI Risk Prediction & Detailed Explanation

Communication analysis indicates a HIGH risk level associated with Banking Phishing patterns.

3. What We Detect (Threat Pattern Analysis)

- **Urgency / Pressure Tactics:** Demands prompt compliance or threatens punitive action.
- **Credential Phishing:** Solicits sensitive OTPs, passwords, PINs, or net banking information.

4. Suspicious Indicators Detected

- Urgent or threatening language demanding immediate response
- Requests sensitive credentials, OTP, PIN, CVV, or banking details
- Contains external web link (1 detected)
- Link Observation: Direct IP address host: Uses numerical IP rather than a verified domain name (common phishing tactic).

5. URL & Link Safety Analysis

- Detected URL:** <http://192.168.1.55/sbi-verify>
- Unencrypted HTTP protocol: Data transmitted in plain text without SSL/TLS encryption.
 - Direct IP address host: Uses numerical IP rather than a verified domain name (common phishing tactic).
 - High-risk brand / urgency keywords in URL: 'verify, sbi'.

6. Safety Recommendations

- ✓ Do not send money or pay processing/registration fees.
- ✓ Do not click on external links provided in unverified messages.
- ✓ Never share OTP, PIN, CVV, passwords, or bank details.
- ✓ Independently verify the claim through the official website or verified support hotline.

7. Immediate Actionable Next Steps

Step 1: Block the sender on your messaging platform.

Step 2: Preserve screenshots and transaction records.

Step 3: Report fraudulent activity on official cybercrime channels (e.g. cybercrime.gov.in).
