Incident Report ID:	#00043	Analyzed User:	LAKSHMI
Analysis Date:	2026-09-19 06:40:58	Language:	EN
Scam Category:	Fake Job Scam	Assigned Risk:	HIGH RISK — FRAUD / SCAM DETECTED

1. Submitted Communication Message

"Dear user, Amazon part-time job offer. Earn 3000 Rs daily by liking YouTube videos. Telegram @easy_earn_tasks. Pay 200 Rs registration fee to start now."

2. AI Risk Prediction & Detailed Explanation

This message exhibits strong characteristics of a classic task-based Fake Job Scam impersonating Amazon. It promises unrealistically high daily earnings for simple tasks (liking videos) and requires an upfront registration fee paid via an unofficial channel (Telegram).

3. What We Detect (Threat Pattern Analysis)

- **Urgency / Pressure Tactics:** Demands prompt compliance or threatens punitive action.
- **Payment Demands:** Upfront fees, processing charges, or direct UPI transfer requests.

4. Suspicious Indicators Detected

- Impersonation of a well-known brand (Amazon) for unrelated social media tasks
- Unrealistic compensation claims (3000 Rs daily for liking videos)
- Requirement to pay an upfront fee (200 Rs registration fee) to secure employment
- Direction to communicate via an unverified third-party messaging platform (Telegram)

5. URL & Link Safety Analysis

No external web links detected in the message.

6. Safety Recommendations

- ✓ Never pay an advance fee or registration charge to secure employment or task-based work.
- ✓ Be skeptical of job offers promising high pay for minimal, repetitive online tasks.
- ✓ Do not engage with recruiters who operate solely through messaging apps like Telegram or WhatsApp.

7. Immediate Actionable Next Steps

- Step 1:** Do not send any money or share personal financial information.
- Step 2:** Block the sender and report the Telegram account for fraud/spam.

Step 3: Verify legitimate employment opportunities directly on the official Amazon careers site.
